Location: Austin, TX, USA

Professional Summary

Experienced Full-Stack Software Engineer with 7+ years of expertise in developing scalable web applications and cloud-based systems. Proficient in modern JavaScript frameworks, backend development, and DevOps practices. Passionate about building high-performance teams and delivering user-centric solutions.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, Java, SQL, HTML5, CSS3
Frameworks & Libraries: React.js, Node.js, Express.js, Next.js, Django, Spring Boot
Databases: PostgreSQL, MongoDB, MySQL, Redis
DevOps & Tools: Docker, Kubernetes, Jenkins, GitHub Actions, AWS (EC2, S3, Lambda, RDS), Terraform
Testing: Jest, Mocha, Cypress, Selenium
Other: RESTful APIs, GraphQL, Microservices Architecture, CI/CD, Agile/Scrum, TDD

Professional Experience

Senior Software Engineer

TechWave Solutions | Austin, TX

Jan 2021 – Present

- Led a team of 5 engineers in developing a cloud-based analytics platform used by Fortune 500 clients.
- Architected microservices for a high-traffic e-commerce platform, reducing load times by 35%.

- Implemented CI/CD pipelines using GitHub Actions and Docker, reducing deployment time by 50%.
- Collaborated with product managers and designers to ship features on time in bi-weekly sprints.
- Mentored junior developers and conducted code reviews to maintain high code quality.

Technologies: React, Node.js, AWS, MongoDB, Docker, GraphQL

Software Engineer

BrightCore Inc. | Remote

Jun 2017 – Dec 2020

- Built and maintained modular React components used across multiple product lines.
- Designed and integrated RESTful APIs with a Node.js backend and PostgreSQL database.
- Contributed to migration from monolith to microservices, increasing deployment agility.
- Wrote automated unit and integration tests, improving test coverage from 45% to 85%.

Technologies: React, Express.js, PostgreSQL, Jest, Jenkins

Education

Bachelor of Science in Computer Science

University of Texas at Austin

2013 – 2017

Certifications

- AWS Certified Solutions Architect – Associate (2023)
- Certified Kubernetes Administrator (CKA) – (2022)

Projects

1. DevTrack – Project Management Tool

An open-source Kanban-style project management tool similar to Trello. Built with React, Node.js, and MongoDB. Integrated user authentication and real-time updates using WebSockets.

2. BudgetMate – Personal Finance Tracker

A mobile-friendly budgeting app built using Next.js and Firebase, featuring expense tracking, data visualization, and goal setting.
